FLOKE FAMA
PURVEYOR OF EXCELLENCE IN HEALTHCARE

# What we stand for

MISSION

To provide world class medical solutions to all medical facilities and laboratories in the West African sub region.

VISION

To have a localized industrial complex which produces all medical equipments and reagents locally and to be listed on the Ghana Stock Exchange by 2027.

AIM

To have a production plant in Ghana to produce our reagents and some of our hospital disposables locally to boost the economy and create meaningful well paying jobs.

FLOKE FAMA
PURVEYOR OF EXCELLENCE IN HEALTHCARE

**Overview & History:**

**FLOKEFAMA LIMITED** founded in 2008, is a registered company specializing in delivering world-class healthcare equipment across Ghana and West Africa. With a strong presence in both the private and public sectors, we represent diverse medical equipment manufacturers, bringing innovative technology to our clients and contributing significantly to the development of healthcare in the markets we serve.

Our well-experienced Bio-Medical Engineers, equipped with regularly upgraded skills, deliver top-tier service, ensuring that all who entrust themselves to our care receive world-class customer service and exceptional technical support. We are steadfast in our commitment to quality, which is why our customers consistently return to us for their medical equipment needs.

**Industry Experience:**

**FLOKEFAMA** is recognized as one of the most reputable and trusted medical equipment suppliers in Ghana. Our years of experience have enabled us to establish strong partnerships with leading medical clients across the nation, allowing us to deliver high-quality equipment tailored to meet specific needs. Whether it's cutting-edge technology or reliable essentials, **FLOKEFAMA** is committed to fulfilling all medical equipment requirements with excellence.

**Our Services:**

**FLOKEFAMA LTD** offers an extensive range of high-quality medical equipment, services, and supplies. Our dedicated team works closely with customers to develop tailored solutions that reduce costs and enhance healthcare delivery. Our services include:

1. **Medical Equipment Sales:** Providing top-of-the-line medical equipment to meet diverse healthcare needs.
2. **Equipment Installation:** Ensuring seamless setup and optimal functionality.
3. **Equipment Maintenance:** Regular maintenance to keep equipment in peak condition, minimizing downtime.
4. **Equipment Repairs:** Efficient repair services to minimize operational

disruptions.

5. **Calibration Services:** Precise calibration for accuracy and reliability.
6. **Training and Support:** Comprehensive programs and ongoing support to optimize equipment utilization.

**Our Prime Partners:**

**FLOKEFAMA LTD** proudly partners with top medical equipment manufacturers, including MR Global (Mindray) and Biozek Holland, as their exclusive representatives in West Africa. We also collaborate with premier institutions like the University of Ghana Medical Centre, The Trust Hospital, and **LEKMA** Hospital, providing them with cutting-edge equipment and complete lab solutions.

**Regional Presence & Training Initiatives:**

**FLOKEFAMA** has established branches in six regions across Ghana, ensuring a wide-reaching impact on healthcare delivery. We also operate the first in-vitro diagnostics training center in the country, dedicated to supporting medical lab scientists and engineers with the knowledge and skills they need to excel in their fields.

FLOKE FAMA
PURVEYOR OF EXCELLENCE IN HEALTHCARE

# Mindray Hematology Analyzers

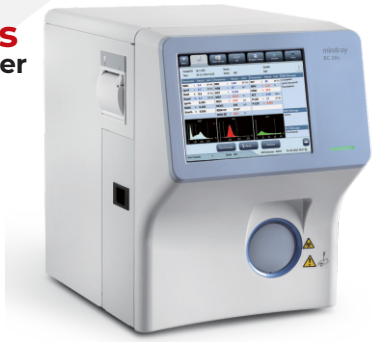

## BC-5150
**Auto Hematology Analyzer**

CBC + 5- part
Compact and user - friendly
Cost - efficient
Accurate and efficient results
Smallest and lightest 5-part hematology analyzer
Low to moderate workload

## BC-20s
**Auto Hematology Analyzer**

CBC + 3-DIFF, 19 parameters, and 3 histograms.
40 samples per hour.
8.4-inch TFT touch screen
Open vial sampling system.
Stores 200,000 results with histograms.
Original QC, calibrators, and reagents.

## BC-30s
**Auto Hematology Analyzer**

CBC + 3-DIFF, 21 parameters, and 3 histograms.
70 samples per hour.
10.4-inch TFT touch screen.
Open vial sampling system
Stores up to 500,000 results with histograms.
Utilizes original QC, calibrators, and reagents.

## BC-6200
**Auto Hematology Analyzer**

C6-part differential results including NRBC, Basophils, and WBC-N i.
Features Neutrophil-to-Lymphocyte Ratio (NLR)
Enhanced detection of reticulocytes and platelets
50 samples with a throughput of up to 110 tests per hour.
80µL of whole blood for CBC + DIFF + NRBC tests.
SF Cube technology
Cost-efficient.

## BC-700
**Auto Hematology Analyzer withESR**

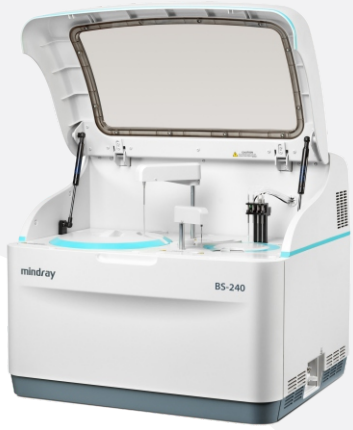

Strong correlation with the Westergren method.
Uses the same QC and calibrator as the BC-6000 series.
avoids interference from dehydration
Capable of both CBC and ESR detection
Compact size
Reports results within 1.5 minutes.
Automated system

## BC-760
**Auto Hematology Analyzer**

3D analysis crucial for precise WBC and PLT readings.
109 parameters for whole blood and 18 for body fluids.
accurate RBC and PLT measurements.
80 tests/hour for CD mode and 40 tests/hour for CD + ESR mode
minimal sample volume (25 µl for whole blood)
stores 150,000 test results
High precision with minimal carryover

# Mindray Chemistry Analyzers

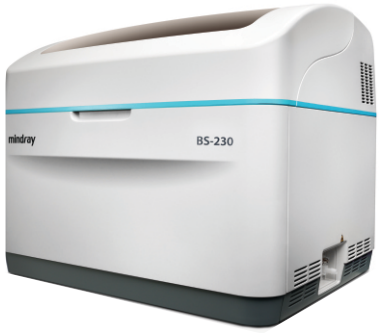

## BS-240
**Auto Bio - Chemistry Analyzer**

200 tests per hour throughput.
40 positions each for samples and reagents
40 interchangeable positions
upgraded auto-washing system.
prepares hemolysate for HbA1c testing
Uses only 100µl reaction volume.

## BS-430
**Chemistry Analyzer**

Equipped with an AAA system
2000 hours of operation with a tungsten halogen lamp
Uses low reagent volumes
same reagent package as other Mindray Chemistry Analyzers
prepares hemolysate for HbA1c tests

## BS-230
**Clinical Chemistry Analyzer**

200 tests per hour
80 sample positions and up to
80 reagent positions (40 fixed and 40 interchangeable).
Requires a minimum of 100µl reaction volume.
Uses disposable cuvettes
Probe carryover is less than 0.05%

## BA-88A
**Semi - Auto Chemistry Analyzer**

Features a 7.0” TFT touch-screen.
Supports both flowcell and cuvette test modes.
Can perform bi-chromatic tests for end point,.
Allows the use of USB

## BS-600M
**Chemistry Analyzer**

Flexible sample management
HBA1c testing
Integrated ISE module
Reliable testing system
Automatic calibration ad low reagent consumption
Smart dilution
300 test per hour

FLOKE FAMA
PURVEYOR OF EXCELLENCE IN HEALTHCARE

# Mindray Immunoassay Analyzers

## CL-900i
**Immunoassay Analyzer**

smallest fully automated chemiluminescence immunoassay
180 tests per hour
Precise magnetic separation.
Environmentally friendly solid-liquid waste separation system.
continuous loading of samples, reagents, substrates, and cuvettes
maintenance-free
intuitive software interface for easy operation

## CL-1200i
**Chemiluminescence Immunoassay Analyzer**

Enhanced reaction system
High precision with controlled syringe mortors
Sample loading and offloading racks
Random access for cuvette
Intuitive software interface
Reagents stable on board for up to 56 days
Up to 180 tests per hour

## CL-2000i
**Chemiluminescence Immunoassay System**

Up to 240 tests per hour
300 sample positions
36 reagent positions
Intuitive software interface for easy use
Connects with BS-800M/BS-2000M systems

## CL-2600i
**Chemiluminescence Immunoassay Analyzer**

Flexible sample management
HBA1c testing
Integrated ISE module
Reliable testing system
Automatic calibration ad low reagent consumption
Smart dilution
300 test per hour

## Mindray Hematology Reagents

## Mindray Chemisty Reagents

## Microbiology Reagents

**Culture Media,
Biochemical Test
Reagents & Antimicrobial
Sensitivity Discs**

# BEWARE OF FAKE MINDRAY REAGENTS

**BUY ONLY ORIGINAL**

## What fake reagents do to your MINDRAY machine.

1. Damages the equipment. Using fake reagents destroys the pumps. valves, and baths of the equipment rendering them damaged.
2. Results are unreliable. Using copy reagents renders all your results unreliable
3. Why spend so much on an equipment to render it worthless because of fake reagents!

## How to detect Fake MINDRAY reagents.

1. Barcodes: The fake reagents have barcodes you can't scan and are all the same.
2. The coloration of the reagents are lighter and printing blurred.
3. Pricing: Fake reagents are priced very low as compared to original ones
4. Shelf life: Expiry dates are usually the same because they have been altered.
5. Buy only from MINDRAY accredited agents. Failure will cause machine damage.

# Biozek Products

## BIOZEK
## DCR 1000

**Immunofluorescence Quantitative Analyzer**
**Premium point of care solution**

## BIOZEK
## DCR 2000

**Immunofluorescence Quantitative Analyzer**
**Premium point of care solution**

### High-efficiency & Accurate
- Advanced fluorescence immunoassay
- Multiple quality control
- Quantitative & Qualitative test result

### Real-Time Testing
- One-step test
- Result in about 3-15 min/test
- Result in 10 second when multi -items testing

### Convenient Operation
- RFID card calibration
- LIS, HIS Compatibility
- USB 2 ports, LAN port, COM port

### User-friendly interface
- Android System
- 7 Inch touch screen
- Small & compact

### Cardiology
cTnI-Troponin I
cTnT-Troponin T
NT-proBNP
CK-MB/MYO/cTnI
H-FABP
CK-MB
MYO-Myoglobin
cTnT/MYO/CK-MB
MPO-Myeloperoxidase
Lp-PLA2
ST2

### Cogulation
